

Cast Magic®

CASTING SYSTEM

The Cast Magic® Casting System is an easy way to add an endless variety of bright metallic, glitter and color effects to your castings. Castings are durable and UV/weather resistant.

Easy as 1-2-3! With the Cast Magic System, you can create spectacular effects in minutes!

Method 1: POWDER COAT MOLD and CAST

1. Powder Coat

2. Cast Resin

3. Demold

Materials Used:

- Mold Max® 30 Silicone Rubber
- Pearly Green® Cast Magic Powder
- Smooth-Cast® 300 Resin
- So-Strong® Black Pigment

Casting reflects perfect detail from the Mold Max® 30 Silicone Rubber mold with a bright metallic finish! Combine powders and pigments for hundreds of different effects.

...That's Cast Magic!

Method 2: MIX POWDER WITH RESIN and CAST

1. Mix Powder

2. Cast Resin

3. Demold

Materials Used:

- Mold Max® 30 Silicone Rubber
- Silver Ghost® Cast Magic Powder
- Smooth-Cast® 325 Resin

Finished casting is translucent with glitter effect!
